

EdgeALL Teacher Training

Providing Most Amazing Learning Experience

Introduction

- Learn mathematics through guided pathway.
- Topic wise video lectures, exercises and modules for complete learning.
- Personalized learning for the students.
- Step by step learning procedure with guidance from a mentor.
- Collaborate with student and parent.
- Real-time student performance analysis.
- Get started in **10 minutes**.

Step 1- Register

- Register as a teacher by clicking on **SignUp/Login**.
- Login using login ID and password created during Register
- You will end up on a page with following menu options
 - **My Students** - add your students here
 - **My Classes** - define classes and assign students to a class
 - **Goals** - see all the goals for each student and create targeted development goals
 - **Progress Report** - summary progress report of each student
 - **Home** - to go to the home page

Step 2 - Add Students you teach

- Click on **My Students**
- Click on **Add A Child** to add students you teach
- Use simple login names and password for each student
- Each student will use this simple login and password to access and practice
- From here, for each student, you can
 - Send personalized message to student 
 - See progress report 
 - See goals assigned to the student 

Step 3 - Create classes you teach

- Click on **My Classes** and create the class(grade) by clicking on add a class.
- Click on **Add A Class** to create a new class
 - Enter class name.
 - Grade
 - Standard - Pick CBSE for India and Common Core for USA
 - If you pick incorrect, you will need to delete the class and recreate

Step 4 - Add students to your class

- Click on **My Classes** and click on the class you want to add students
- Click on **Edit**.
- You will all the students you have added
- Select the students you want to add to this class
- Click on **Update**
- You have added students to the class

Step 5 - Create class goals

- Click on **My Classes**
- Click on goal image of the class you want to create goals for
- Click on **Create Goal** 
 - Select Standard to be CBSE
 - Type as Achievement Goal; Cumulative Review Goal is for creating chapter summary goals
 - Select Basic or Challenge for creating goals with basic or advanced questions
 - Select goal chapter/topic you want
 - Set a target finish date
 - Give it a name so you know about the goal by name
- Click on **Submit**

Step 6 - Progress Report

- Click on **Progress Report**
- Select the grade and student's name
- Chapter level Effort and Time graph will appear
- Click on bar lines to see topic level graph
- Click on **Detail Report** to see detail report in tabular form
- Drill down by clicking on each chapter
- **Focus Areas** lists topics where student is not performing well

That is all. You are ready to use **edgeALL**
